

TMUX QUICK REFERENCE CARD

Frequently used TMUX commands – Version v1.3 December 2015

Prefix key is set to `<ctrl-b>` by default. You can change that behaviour to e.g. `<ctrl-s>` by adding the following commands to your `~/tmux.conf`

```
:unbind C-b
:set -g prefix C-s
:bind C-s send-prefix
```

From Shell

to reach the command mode, use `^b`:

```
create session  new -s foo
kill session    kill-session -t foo
attach session  attach -t foo or a #
rename session  rename-session -t old new
list session    ls
move session    move-window -t other_session
```

Sessions

In this Reference Card, special characters are used as a placeholder for specific, non-alphabetical keys. `<M>` denotes the meta-key, usually bound to `<alt>` *or* `<esc>` while `^` is referred to the Controllkey (CTRL).

```
^b? ..... show all available keybinds
^bL ..... switch back to previous session
^bd ^bs ..... detach from, list all sessions
```

Panes and Buffers

Copy Mode

vim like movements

```
^b[ q ..... enter, exit copy mode
h j k l ..... move left, down, up, right
<space> <-> .... select, copy text under cursor
^b] ..... paste copied text to command line
```

Open, Switch, Delete

```
^bn ..... switch to buffer 0..n
^bc ^b, ^bx .. create, rename, delete window
^bp ^bn ^bl .. go to prev, next, last window
^b<=>^b ..... switch to left, right, top, bottom pane
^bf ^bw ..... find, list windows
^bt ^bq ..... show time, numeric values of panes
^b^o ..... swap with previous pane
^b{ ^b} ..... swap position with previous, next pane
^b% ^b" ..... split pane vertically, horizontally
^b<M - <=>^b> ... resize pane left, right, up, down
^b! ..... push all other panes to next window
```

Panes Position

```
^b<space> ..... toggle through all layouts
^b<M-1> ..... vertical split, all panes same width
^b<M-2> ..... horizontal split, all panes same height
^b<M-3> ..... horizontal split, main pane on top, other
                panes on bottom, vertically split, all
                same width
^b<M-4> ..... vertical split, main pane left, other panes
                right, horizontally split, all same height
^b<M-5> ..... tile, new panes on bottom, same height
                before same width
```
