add/delete bookmark
`:emenu` command-line access to Firefox menubar
`:history` pull up recent 10 online & local pages
`:pclose` close preview window, eg. history
`:preferences` show preferences
`:restart` restart Firefox immediately

Modes

Hints are the way in which Vimperator allows you to follow links on a page. By providing each link with a suitable hint, you can access them with minimal effort.

QuickHint Mode (*f*)

Simulates mouseselection with labeled links on web page. To run new tab in background change to uppercase *F*.

ExtendedHint Mode (;)

This mode is useful for performing operations on hinted elements other than the default left mouse click. If you want to yank the location of hint 24, press `:y` to start this hint mode. Then press 24 to copy the hint location.

`:help extended-hints`
list all extended mode commands

here are a few ...

`a A n` open link n (in new background tab)
`s S` save link/object
`i I` open media object (in new tab)
`y Y` copy URL/label description to clipboard
