TMUX QUICK REFERENCE CARD

Prefix key is set to $\langle ctrl\text{-}b \rangle$ by default. You can change that behaviour to e.g. $\langle ctrl\text{-}a \rangle$ by adding the following commands to your ~/.tmux.conf:

```
:unbind C-b
:set -g prefix C-a
:bind C-a send-prefix
```

From Shell

```
create session
              tmux new -s session-name
kill session
              tmux kill-session -t session-name
attach session
              tmux attach -t session-name
rename session
              tmux rename-session -t old-name new-
              name
list session
              tmux ls
```

Inside Tmux

$\langle M \rangle$ denotes the meta key, usually bound to $\langle ALT \rangle$

Sessions

```
^b?........... show all available keybinds
^bd  ^bs ...... detach / reattach to session
```

Copy Mode

`vim` like movements

```
h j k l...... move left/down/up/right
^b[  q....... enter / exit copy mode
⟨space⟩ ← ... select / copy text under cursor
^b]........... paste copied text to command line
```

Windows

```
^bc  ^b, ...... create / rename window
^bn  ^bp  ^bl.. navigate next/prev/last window
```

Panes $_{or}$ Buffers

Open / Switch / Resize

```
^bx  or ^d  .... delete pane
^b!........... close all panes but this one
^b⟨⇔⇕⟩....... switch panes
^bn........... change to buffer 0...n
^b⟨M - ⇔⇕⟩  ^bz
              resize / full-screen pane
^b{  ^b}....... swap with prev / next pane
```

Split Panes

```
^b%  ^b" ...... split pane vertic / horiz
^b ⟨M-1⟩..... vertical split, all panes same width
^b ⟨M-2⟩..... horizontal split, all panes same height
^b ⟨M-3⟩..... horizontal split, main pane on top, other
              panes on bottom, vertically split, all
              same width
^b ⟨M-4⟩..... vertical split, main pane left, other panes
              right, horizontally split, all same height
^b ⟨M-5⟩..... tile, new panes on bottom, same height
              before same width
```
